How the 30 days go

Day 0	15-minute chat. We look at how you book today and count last month's no-shows and late cancellations. That number is the starting point.
Days 1-3	Set-up. We connect your calendar and payment link, write the messages with you and test with a fake booking. Nothing goes live until you approve it.
Week 2	Check-in. A short call to adjust wording, timings or your cancellation rule.
Day 30	Results review. No-shows, deposits collected and slots refilled, compared with Day 0. You decide whether to continue and on which plan.
Month 2	Continue or switch off. Essentials €290/month or Professional €490/month, billed monthly, cancel any time — or we switch it off and hand back your data at no cost.
