€149/month

First 30 days free. From month 2, €149 per location, billed monthly. No set-up fee for the first five businesses. Cancel any time with a message.

How the 30 days go

Day 0	15-minute chat. We look at how you book today and count last month's no-shows and late cancellations. That number is the starting point.
Days 1–3	Set-up. We connect your calendar and payment link, write the messages with you and test with a fake booking. Nothing goes live until you approve it.
Week 2	Check-in. A short call to adjust wording, timings or your cancellation rule.
Day 30	Results review. No-shows, deposits collected and slots refilled, compared with Day 0. You decide whether to continue.
Month 2	Continue or switch off. €149/month, billed monthly, cancel any time — or we switch it off and hand back your data at no cost.

Pilot terms

- Free for 30 days** from go-live. No payment details needed to start.
- From month 2: €149/month** per location, billed monthly in advance. No set-up fee for the first five businesses.
- No lock-in.** Either side can end the service with a written message. On exit we export your data to you and delete our copy within 30 days.
- Your money.** Deposits and balances are paid straight to your own payment link. FlowServe never handles your clients' money.
- Your data.** Client data stays in your own Google account. You are the data controller; FlowServe is your data processor and signs a GDPR Article 28 data processing agreement with you before go-live.
- Your voice.** You approve every message template before it is sent to your clients. Messages are sent in your business's name.
- What we need from you:** 15 minutes on Day 0, access to your booking calendar, your payment link and your cancellation rule.
- Responsibility.** FlowServe sends reminders and requests; your booking decisions and your cancellation policy remain yours. During the free period the service is provided as-is.
